**DETAILED ACTION**

***Allowable Subject Matter***

1. The 35 USC 112 rejections of Claims 1,5 and 10 have been withdrawn in view of applicant's amendments to the claims.
2. Claims 1-16 are allowed.
3. The following is an examiner's statement of reasons for allowance: the claims in their presently amended form are allowable over the prior art made of record. The most pertinent prior art known to the Examiner is listed on the attached PTO-892 forms included in the first office action as well as this correspondence. As shown by Niume et al. in US Patent No. 6,777,477 it is known in the art to produce conductive thin films using both an organotin halide as well as a water soluble polymer (e.g. polyvinyl alcohol) in a water based solvent. Further, it is known in the art to use water soluble indium compounds in conjunction with organotin halides to form conductive ITO thin films i.e. see Olson (US Patent No. 2,617,742). However, none of the prior art of record teaches nor suggests the combination of using water soluble indium compounds in conjunction with a organotin halide and a water soluble polymer. Even assuming arguendo that the claimed composition would have been obvious to one of ordinary skill in the art, the comparative data presented in Table 1 of the Specification at pg. 55 shows that the combination of the elements recited above result in an unexpected advantage of significantly decreasing the surface resistivity of the composition over a composition containing only organotin and waters soluble indium compounds. This comparative data is sufficient to rebut any such hypothetical case of *prima facie*

obviousness of the claimed invention components. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the conductive thin film art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
